

PRESS RELEASE

**EVER SEE ONE?
EVER HEAR ONE?**

We have and we have the pictures and their voices to show you.

We are proud to announce a new DVD "Ghosts, Coast to Coast," filled with our ghost pictures, stories, and voices collected by the country's best ghost investigators from coast to coast. Your local ghost investigation group has been selected as one of the best in the country and the evidence they collected during their ghost investigations are presented as part of this collection.

They are the Haunt Masters Club, and they will be happy to show you their pictures and the ghost voices they have captured. Ghosts are not only for Halloween! If you are interested in an interview, they will be happy to share

them and talk with you about their “ghost experiences,” presented as part of this collection.
